Spreaded
Infrastructure

170KL

Volume
Capacity

- State of the art Infrastructure
- GMP-GLP Certified Facilities
- Leveraged experienced teamwork to work with excellence
- Latest technology infrastructure set-up by reputed companies
- Simultaneous 2 molecules can be produced with supporting 2 powder processing area
- In-house intermediate production to control quality, costing and timeline
- Techno commercial expertise with huge experience in respective fields
- 170 KL installed capacity in Plant 1
- Customization possibilities to cater contract manufacturing
- 200 TR Capacity of Chilled Water (+7°C Temp.)
- 100 TR Capacity of Chilled Brine (-20°C Temp.)

PRODUCTS

ACTIVE PHARMACEUTICAL INGREDIENTS

Product	Grade	CAS	End Use
Chlorobutanol Hemihydrate	IP/BP/EP/USP	6001-64-5	Pharmaceutical Preservative
Guaifenesin	IP/BP/EP/USP	93-14-1	Decongestant & Expectorant
Meloxicam	IP/BP/EP/USP	71125-38-7	Anti-inflammatory

ACTIVE PHARMACEUTICAL INTERMEDIATE INGREDIENTS

Product	CAS	End Use
2-Amino 3,5-Dibromo benzaldehyde (ADBA)	50910-55-9	Ambroxol HCL
[4-(4-Fluorophenyl)-3-hydroxymethyl-1-methyl-piperidine] (-) Alcohol	109887-53-8	Paroxetine HCL
4-(3,4-Dichlorophenyl)-1-tetralone	79560-19-3	Sertraline HCL

INFRASTRUCTURE

The new facility is located in the Ankleshwar GIDC area of Gujarat, India, and is equipped with the latest technology and equipment to produce high-quality APIs and drug intermediates. The facility also has a well-equipped quality control laboratory, where all APIs and drug intermediates are thoroughly tested before being released to customers.
